## **ROUNDS**

### **Level 1- Visionary Vibes**

Participants will be asked to create an image based on a given prompt. The goal is to generate a creative and accurate representation of the prompt. ( Time – 30 minutes)

- **Task:** Use an AI image generator to create an image from the provided prompt.
- **Criteria:** Creativity, accuracy, and adherence to the prompt.
- **Scoring:** Points will be awarded based on creativity, relevance, and visual quality.

### **Level 2- Prompt Pursuit**

In this round, participants will be provided with an AI-generated image. The task is to identify the original prompt used to create the image. ( Time – 30 minutes)

- **Task:** Analyze the image and write the most accurate prompt that could have generated it.
- **Criteria:** Clarity, accuracy, and creativity of the prompt based on the image.
- **Scoring:** Points will be awarded based on how close the identified prompt is to the original.

### Level 3- Design Forge

Participants will design a simple webpage using prompts. This round will test their ability to create a basic web design with HTML and CSS using specific AI-generated prompts. . ( Time – 30 minutes)

- **Task:** Use AI tools and generate the HTML/CSS code from the given web design prompt.
- **Criteria:** Functionality of the design, creativity, and how well the design reflects the prompt.
- **Scoring:** Points will be awarded based on the design's functionality, layout, and how closely it matches the prompt.

### Rules:

- All rounds will have a specific time limit, and participants are expected to manage their time effectively.
- Teams are allowed to use the devices and internet provided by the team.
  - No other devices are permitted.
  - Task should be completed with the provided platform and not any other.
- Judges will assess the work based on the provided criteria, and scores will be announced after the competition ends.

### Judging Criteria:

- Creativity

- Accuracy
- Technical skills (in web design)
- Adherence to the prompt
- Overall quality and attention to detail

### **Disqualification Rules:**

- Plagiarism or copying other teams' work will result in immediate disqualification.
- Late submissions: Participants who fail to submit their task within the given time will be disqualified.
- Use of inappropriate content or offensive material will lead to disqualification.
